

VAQUERO GOLF CLUB WESTLAKE, TEXAS

Discovery Land Company selected Parkway to assist with the design and construction of multiple projects for Vaquero, a world class golf course with state-of-the-art facilities in Westlake, Texas. Parkway constructed the original 30,000 square foot clubhouse and in 2018 we completed a total remodel and addition to the facility. Parkway also built the ranch house, guard house, comfort stations, maintenance facility, tennis center and golf teaching center. Each of these facilities incorporates beautiful architectural elements of the highest quality, using an abundance of natural materials to fit Vaquero's design theme.
