

SOLSTICE SENIOR LIVING

OCCUPIED RENOVATION NATIONAL PROGRAM

PROJECT SUMMARY

Solstice Senior Living recognized an increased demand for independent living, record-high occupancy rates, and the need to renovate existing facilities. Solstice partnered with Parkway to address this demand and position their organization for future growth.

The occupied renovation projects ranged from smaller refresh updates to more extensive renovations. The program scope included enhancing public spaces through interior design updates and renovations, including finishes, furniture, art, and decor. All of the occupied remodel projects finished ahead of schedule, from two weeks to two months early.
